Programs/Initiatives

- High Intensity Drug Trafficking Area (HIDTA)⁸
Designated in 1999, the New England HIDTA is responsible for areas in Massachusetts, Connecticut, Rhode Island, Vermont, Maine, and Hillsborough County in New Hampshire. This HIDTA was designated in part because of the high purity heroin found throughout New England and the criminal groups trafficking heroin and crack from New York to New England. The primary mission of this HIDTA is to target, investigate and prosecute violent criminal offenders, especially those from New York, responsible for the distribution of high purity heroin, cocaine, and crack.
- Commission on Alcohol and Drug Abuse Prevention, Intervention, and Treatment⁹
The purpose of the Governor's Commission is to significantly reduce alcohol and drug problems and their behavioral, health, and social consequences. The Commission advises the Governor regarding policy, funding, and the delivery of effective, efficient coordinated alcohol and drug abuse prevention and treatment services.
- Partnership for a Drug-Free New Hampshire¹⁰
Launched in 1994 as part of the national Partnership for a Drug-Free America, the Partnership for a Drug-Free New Hampshire develops and distributes anti-drug messages and works with New Hampshire's media outlets to air and publish the messages and resources.
- Impaired Driving Intervention Program¹¹
The Impaired Driving Intervention Program provides drug-related education and counseling to individuals who have substance abuse-related driving convictions. There are three types of services offered: First Offender Programs; Phase II Programs

for Repeat First Offenders; and Multiple Offender Programs for second or subsequent offenders.

➤ New Futures¹²

The mission of New Futures is to foster, promote, and support effective strategies to reduce alcohol, tobacco, and other drug problems in New Hampshire. New Futures focuses on two goals: the reduction of underage alcohol problems and an increase in access to drug/alcohol treatment.

Federal Funding

➤ Drug-Free Communities Support Program grantees in New Hampshire:¹³

Drugs

- Cocaine
Although kilogram quantities of cocaine are available, cocaine is usually encountered in smaller, retail quantities within the State. Crack cocaine use primarily occurs in and around the larger cities in New Hampshire and along the southern border of the State.²³ In the first quarter of FY 2002, powdered cocaine sold for \$80-\$100 per gram and was 20-30% pure. Crack cocaine sold for \$20-\$50 per rock.²⁴
- Heroin
There has been an increase in heroin availability along the seacoast and in the southeast region of the State.²⁵ This substance has emerged as the most significant drug threat to New Hampshire. High purity, low cost heroin is attracting a new user

population: young adults who snort or smoke the drug instead of inject it. In the first quarter of FY 2002, heroin sold for \$7-\$20 per bag.²⁶

- Marijuana
Almost all of the foreign origin marijuana available in New Hampshire originates in Mexico. Domestically produced marijuana is also available in the State as is high potency, Canadian-produced marijuana (BC Bud). THC content in excess of 22% has been found in the area.²⁷ In the first quarter of FY 2002, commercial grade marijuana sold for \$900-\$2,200 per pound, sinsemilla sold for \$2,500-\$3,000 per pound, and a marijuana joint sold for \$5.²⁸
- Medical Marijuana
In March 2001, the New Hampshire House of Representatives rejected a bill (by a vote of 223 to 101) that would have legalized marijuana for medical purposes.²⁹
- Methamphetamine
There has been a growth in the availability of methamphetamine in the State, particularly in and around the seacoast area.³⁰ In the first quarter of FY 2002, methamphetamine sold for \$150 per gram at the retail level.³¹
- Club Drugs
There has been a rapid increase in the availability of MDMA in New Hampshire, particularly among students and in association with the rave scene.³² In the first quarter of FY 2002, MDMA sold for \$7 per tablet at the wholesale level and \$20 per tablet at the retail level. Powdered MDMA is available in the Seacoast region and sells for \$150 per gram.³³
- Other Drugs
Oxycodone (OxyContin) and methylphenidate hydrochloride (Ritalin) are the most commonly diverted and abused pharmaceuticals in New Hampshire. In April 2002, OxyContin sold for \$1 per milligram of active ingredient (\$80 for an 80-milligram tablet) and Ritalin sold for \$4-\$6 per tablet.³⁴
- Between November 27 and December 15, 2001, more than four hundred New Hampshire adults were interviewed for New Futures to determine resident attitudes concerning alcohol and other drugs. Results of the interviews include the following:³⁵
 - 71% felt that drug and alcohol misuse in New Hampshire is a serious problem;
 - 77% view alcohol and other drug addiction as a chronic disease condition that is best handled by treatment programs rather than the criminal justice system (12%);
 - 82% personally know someone who has had an alcohol and/or drug problem
- According to 1999-2000 data from the National Household Survey on Drug Abuse, approximately 33% of New Hampshire citizens ages 12 and older felt that smoking marijuana once a month posed a great risk.³⁶
